create_project_folder *Create project directory and folder system.*

Description

create_project_folder() creates a .Rproj object in a new folder at the specified directory, and then sets up a default directory structure.

Usage

```
create_project_folder(project_name, base_path = ".")
```

grab_homeworks *Get homeworks.*

Description

grab_homeworks() downloads a set of homework RMarkdown files from a specified URL.

Usage

```
grab_homeworks(variables)
```
